KIDS ART CLUB

In October, our focus will be on female artist Frida Kahlo.

For four weeks we will focus on the profound impact of Frida Kahlo's visionary artistry. As one of the first female artists to challenge the established norms of the art world, Kahlo fearlessly delved into the depths of her psyche, infusing her work with a rich tapestry of symbols and personal narratives. Her groundbreaking approach inspired countless artists worldwide, fueling their imaginations and reshaping the artistic landscape.
